PARTICIPANT INFORMATION SHEET

We appreciate your interest in participating in this online task. Please read through the following information before agreeing to participate (if you wish to), by clicking on the button below.

What is the study about?

The aim of this study is to contribute to the understanding of how people process word combinations visually.

Who are the researchers?

The principal researcher is **Ms. Sydelle de Souza** who is attached to the School of Informatics at the University of Edinburgh. The study is being carried out under the supervision of Dr. Frank Mollica and Dr. Leonidas Doumas.

Why have I been asked to take part?

You have been invited to take part in this study because you are an adult, native speaker of English.

What happens if I agree to participate?

You will be asked to perform a simple word recognition task wherein you will be shown a verb-noun combination in English (e.g., COUNT STARS). You will be asked to

indicate (via a keypress) whether this combination of words is acceptable or not in English. The whole process should take approximately 5 to 7 minutes. No background knowledge is required. We are only interested in your intuitions about these word combinations. There will be instructions to guide you throughout this process.

Do I have to participate?

No. Taking part in this study is entirely voluntary. If you decide to take part, you are free to withdraw at any time and without giving a reason. All you have to do is close the tab or the browser window.

Compensation

You will be compensated with **GBP 1.25** for your participation upon completion of the study.

What are the possible risks and discomforts?

There are no known risks or discomforts associated with participation in this study.

What are the possible benefits?

Apart from the compensation you will receive, there are no known benefits associated with participation in this study.

What happens to the information collected about me?

All information collected about you will be kept strictly confidential. We will not ask for your name or any other personal information. The data will be stored on a password-protected computer and will be destroyed after 5 years. Only the researchers will have access to the data. The data will be used for research purposes only. The results of the study may be published in scientific journals or presented at scientific conferences. You will not be identified in any publications.

Whom should I contact if I have any questions?

If you have any questions about this study, you may contact the principal researcher, **Ms. Sydelle de Souza**, by email at **sydelle.desouza@ed.ac.uk**.

If you have any questions about your rights as a research participant, you may contact the **University of Edinburgh Research Ethics Committee**, by email at **pplsrec@ed.ac.uk**.
